

PDQ is proud to be partnered with CABVI under the US AbilityOne Program.

This partnership facilitates the employment of people who are blind or have significant other disabilities in the production of ANSI/BHMA Grade 1 door hardware. Under the SKILCRAFT® brand, blind and visually impaired US citizens assemble door hardware using PDQ components for use by all federal government agencies.

41 U.S.C. Chapter 85 and FAR 52 208-9 requires the mandatory sourcing of SKILCRAFT® door hardware products on federally funded projects and construction.

Code of Federal Regulations and FAR References:

- 41 U.S.C. Chapter 85 – JWOD Act requires all Federal Agencies to purchase Supplies and Services from nonprofits who employ people who are blind or have significant other disabilities.
