The Harrington Medical Center

The Harrington Medical Center and Ambulatory Surgery Center located in Clinton Township is a three-story, 62,000-square-foot multi-purpose building. The facility features several of the hospital's service lines and offices for many physicians across a range of specialties. This includes four operating rooms, diagnostic and imaging services with a mobile MRI, primary care, pain management, orthopedics, electrophysiology, vascular surgery, neurology, urology, endocrinology, physical therapy and pharmacy. "This new medical center and its broad array of specialties will make a significant impact in our patients' ability to address their needs – from basic to complex, and from primary to essential services." - Tom Brisse, McLaren Macomb president and CEO.

The Harrington Medical Center

The new facility was outfitted with PDQ Manufacturing door hardware including GT Series cylindrical locks for entry, common area and storeroom doors, 6300 Series Exit devices and 6EW trim on interior and exterior doors, 7100 Series door closers, hinges, flush bolts, flush plates, pull plates, and push/pull bars.
