Hyatt House The Woodlands - Shenandoah

Metropark Square's new Hyatt House is a distinctive hotel concept that evolves the extended-stay model into a social and modern environment where guests feel like residents of an upscale apartment community. Guests can explore The Woodlands and have easy access to The Cynthia Woods Mitchell Pavilion, Market Street, and The Woodlands Mall. The hotel is close to offices for ExxonMobil, Anadarko, and McKesson, as well as medical facilities at Texas Children's Hospital, St. Luke's Health, and Houston Methodist Hospital.

Featuring 148 contemporary, residentially inspired Studios, One- and Two-Bedroom Kitchen Suites, and Den Guestrooms. Hyatt House boasts unexpected amenities and services, including indoor and outdoor social spaces, a Lounge that resembles the living space of today's modern home with an adjacent H BAR and Social Sectional, as well as other multi-purpose areas to do everything, or simply do nothing.

Hyatt House The Woodlands - Shenandoah
